United States District Judge

Attachment

The Court finds that the plea hearing for Mark A. Filippone ("FILIPPONE") to be held on October 29, 2020, cannot be further delayed without serious harm to the interests of justice, for the following reasons:

1. To ensure that the Court is not overwhelmed by cases and proceedings at the conclusion of this period of emergency. Currently, District Judges in New Jersey handle a substantially larger docket of cases than Judges in other Districts in the United States. New criminal cases continue to be assigned by the Court during the emergency. If the Court cannot resolve matters by guilty plea and sentencing, the resulting backlog will overwhelm the Court's ability to effectively function. The concern of such congestion and the particular harm that likely will be caused by delays in the processing of cases and matters in the future is particularly acute in this emergency, at least given that: (1) it is unknown when this emergency will subside and when the Court will be able to function at normal capacity (including, among other things, the empanelment of trial juries) and (2) this District's pre-existing shortage of District Court Judges which already has challenged the Court's ability to process and resolve cases. This District has six District Judge vacancies: two have been pending for more than five years; one has been pending almost three years; two have been pending for more than a year; and one has been pending almost a year. The Federal Judicial Conference has deemed the District's six vacancies judicial emergencies.

2. To permit the defendant FILIPPONE to obtain a speedy resolution of his case through an admission of guilt, timely sentencing to afford appropriate punishment and rehabilitation, and the defendant making amends to any victims through an admission of responsibility and restitution. Defendant FILIPPONE has asked for this case to be resolved today by a plea hearing.

3. To permit victims of the offenses the ability to obtain a speedy determination of guilt/responsibility for the harm caused to them by the offender and to obtain restitution for the crimes committed against him.

4. To permit the Government to obtain a resolution of the case so that the Government, already operating in a restricted capacity due to the emergency, may appropriately focus its resources on other, emerging criminal matters. The Government and FILIPPONE have asked for this case to be resolved with a plea hearing on October 29, 2020.
